DOUE smart like us

WITH A SMART FURNITURE SYSTEM LIKE DOUE EVERYTHING BECOMES EASIER. IT'S LIKE ADDING A NEW DIMENSION TO EACH SQUARE METRE OF SPACE.

EVERYONE THROUGHOUT THE ORGANISATION WORKS WITH A SIMILAR FOCUS. THE VALUES WHICH IDENTIFY A COMPANY, ITS IMAGE AND POSITION IN ITS MARKET, ARE CLEARLY REFLECTED BY THE WAY IN WHICH IT ORGANISES ITS SPACE PLANNING.

IT IS THEREFORE IMPORTANT TO DEVELOP THE MOST EFFECTIVE WAYS OF WORKING. MORE PERSONAL WAYS. THIS IS NOT DIFFICULT, EXPENSIVE, OR UNATTAINABLE. WITH DOUE THE EXCEPTIONAL COMES AS STANDARD.

DOUE= Controlling space

Nowadays, companies manage their space in the context of time. The flexibility of the workstation allows for future change whether this brings the need for additional positions, the creation of teams, or regroupings. Doue's flexibility is inbuilt. The variable adjustability of the worktops and legs enables multiple configurations from any one workstation. Over a period of time, this translates into cost and space saving. Working with DOUE means thinking smart - four dimensionally.

Perforated steel
screens,
aluminium Grey
finish ZU.

DOUE= Openness

With the fast development of e-commerce and new technologies, the traditional organisation is changing at a phenomenal rate. The concept of the extended company is increasingly becoming a reality. With the focus on service, companies need to be more visible to their customers. Their staff are becoming nomadic. DOUE is part of this new generation of working. Designed to make life easier, DOUE allows the free flow of information whilst preserving an element of confidentiality. It is a system that allows the expression of individual personalities within the limits of a company's values. With DOUE, communication is no longer a question of what you know, but the way you are.

transition screens.

DOUE= Freedom of movement

Every growing company has to face strategic restructuring and reorganisation. With DOUE, it is easy to affect smart space planning within the existing environment. A DOUE configuration can be dismantled, repositioned and rebuilt within minutes. Space can be designed, workstation by workstation to gain more use of the square metreage. Entire teams and new departments can be created. The organisation is not prevented from progressing by the cost of changing a layout. With DOUE, coping with change is inherent.

Straight top W1600 x D800mm and symmetrical extension D800/800mm, Pear finish PR.

DOUE= Proud to be smart

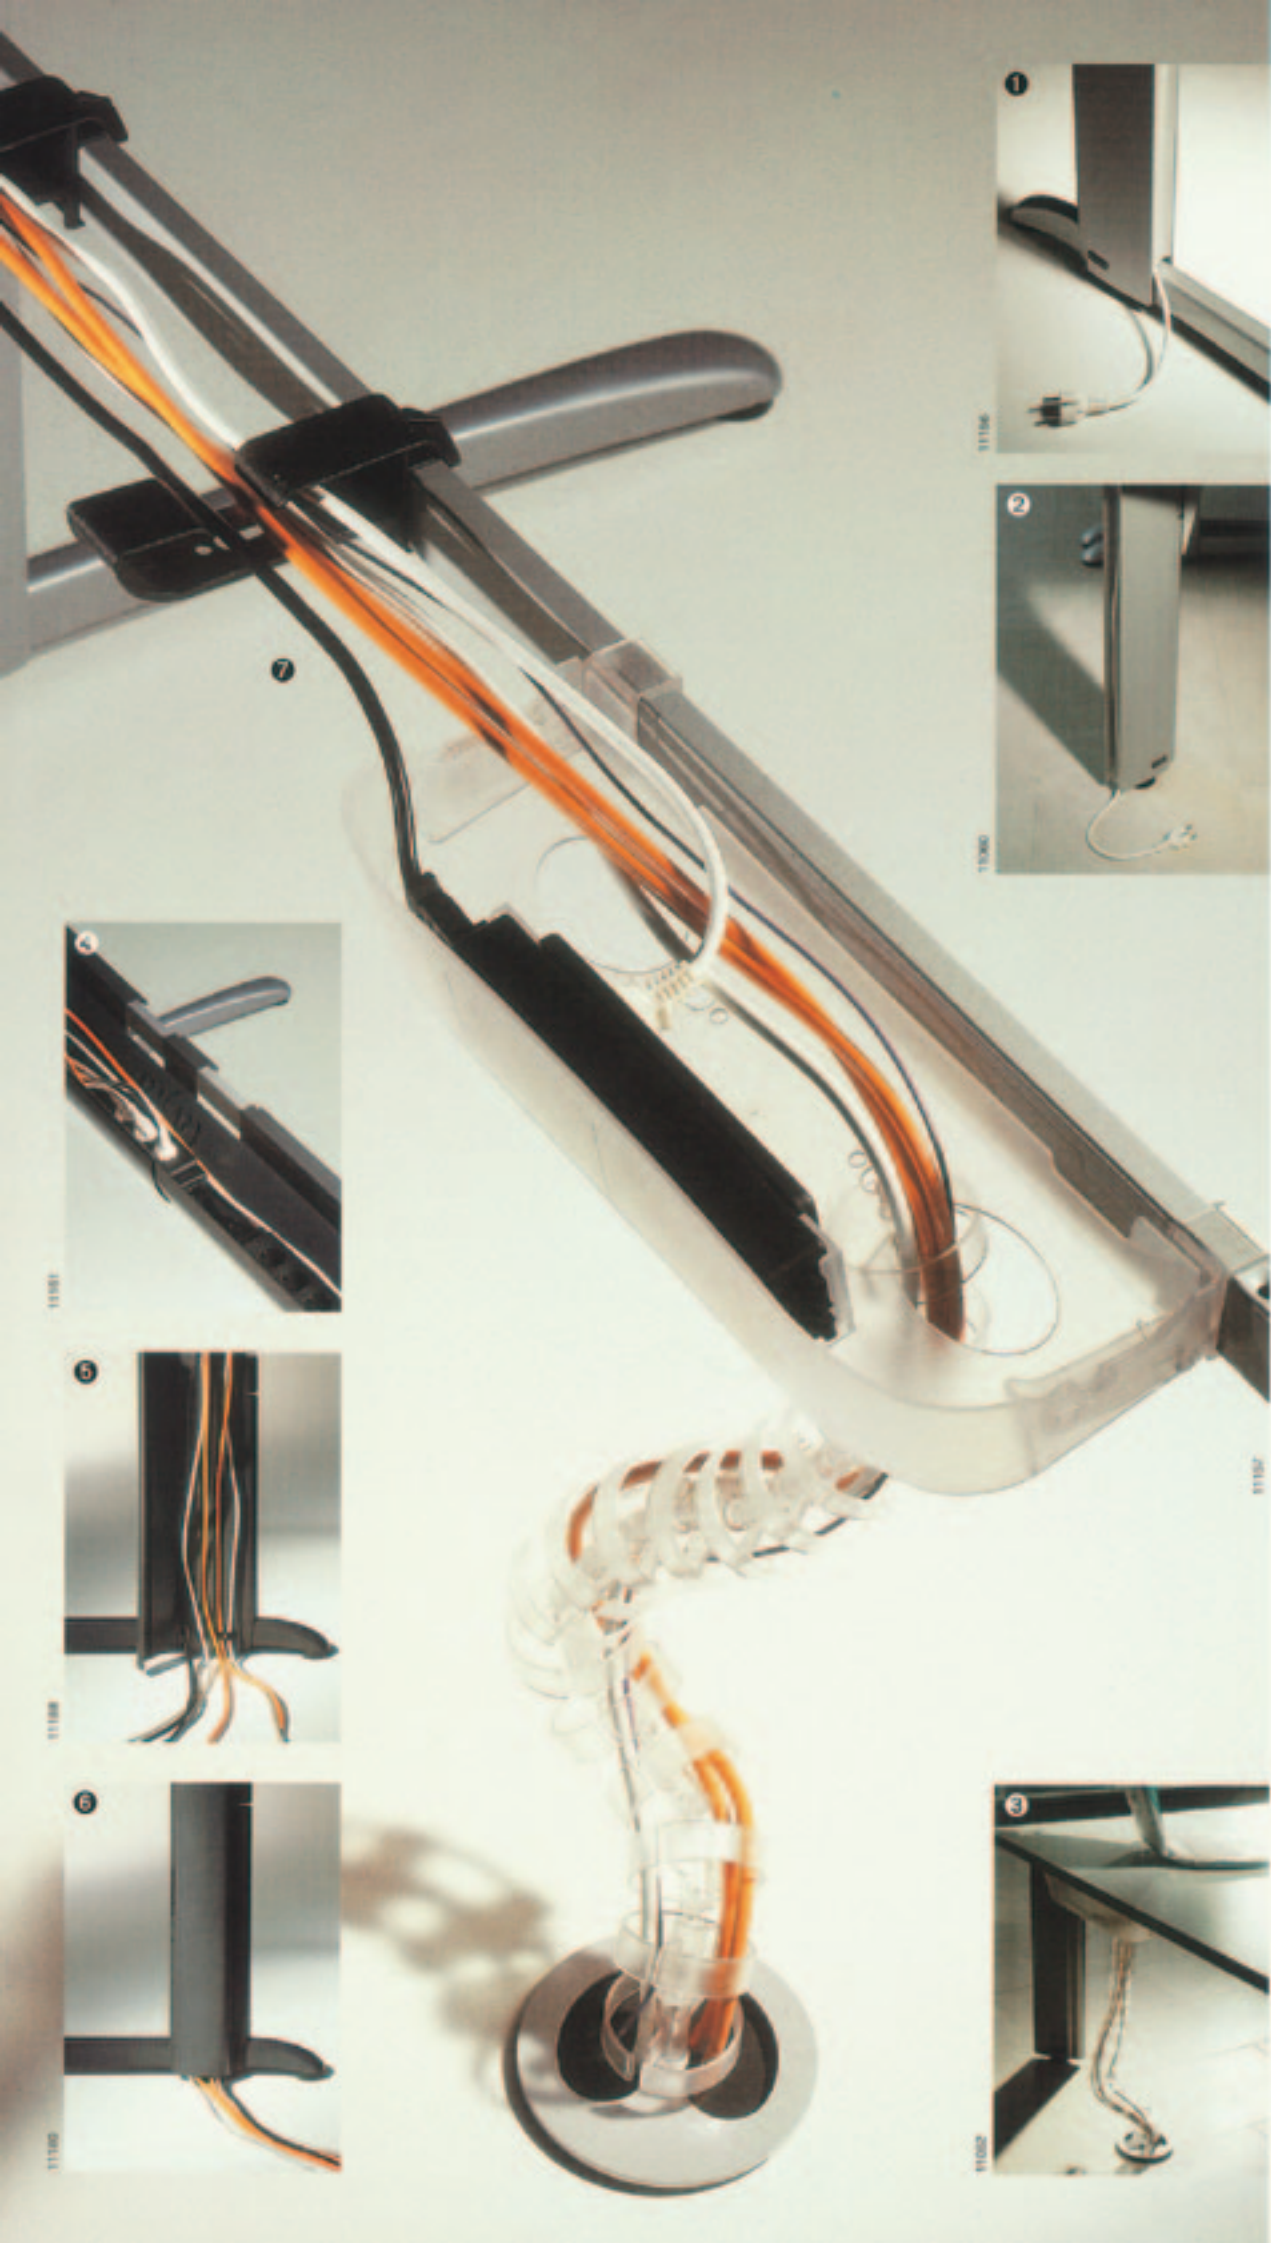

Companies tend to make their mark by conveying their style across their market place. This style can also be communicated via the workspace itself. DOUE offers all companies new perspectives from which to express their individuality and reinforce their image. Along with its classic choice of materials, colours and finishes, DOUE also offers a wide selection of shapes of worksurface tops. Companies can therefore allow their staff to maintain their own individuality, safe in the knowledge that this will help them grow within the organisation.
