FrameOne

If, like us, you're a person who values the finer things in life, take a closer look at FrameOne. It's a desk designed from the ground up to be just as **beautiful** as it is **functional and beneficial to your workday.**

Clean, simple lines and neat design touches – like the eye-catching triangular metal legs and frame that hide power and connectivity cables – will make you proud to own it, as well as **eliminating the clutter that gets in the way of your work.**

As well as **performing brilliantly no matter what you ask of it**, FrameOne is a workstation that stands out in a crowd and **makes a powerful statement about who you are.** In a corporate world over-populated with faceless flatpacks that all look alike, its fusion of day-to-day practicality and timeless elegance is **welcome in any workplace.**

As individual as you are

With its stylish designer looks, and a wide range of shapes, sizes and finishes to choose from, FrameOne is a workstation that's as **individual as you are**. It's also **easy to configure**, with an adjustment crank that allows you to set the height from

620 to 900mm – whatever's most **comfortable and productive** for you. FrameOne has an **elegant aesthetic with clean, simple lines and neat design touches** – like the eye-catching triangular metal legs.

Build a team office

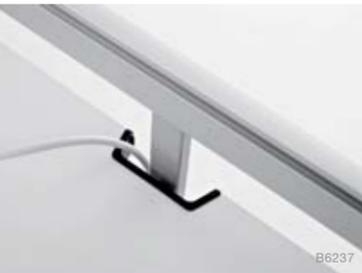

FrameOne's clean, simple shape makes it easy to **build a larger work surface** from several units, like a team bench in an open-plan space. As their needs change throughout the day, your team will be glad of **privacy screens, tidy trays and plug-and-play connectors** that allow them to hook up to power, data and computer equipment at will.

Use FrameOne's stylish simplicity to **create a refined mood** that's just right for a manager's office, while a large tabletop with integrated data and power ports provides all the **space and functionality** your team could ever need for **meetings in contemporary comfort.**

Beautifully organised

FrameOne gives you **the power to organise your desk space** with elegance as well as efficiency. It keeps your stuff organised and out of the way with useful accessories such as the **CPU holder**, **desktop extension** (useful for supporting a printer) and **tidy rail** for pens and other essential items. Plus it's packed with smart ideas like the **height adjuster crank** and cable management features like the **cable tray** and **cable spine**.

Height adjustable from 620... to 900mm

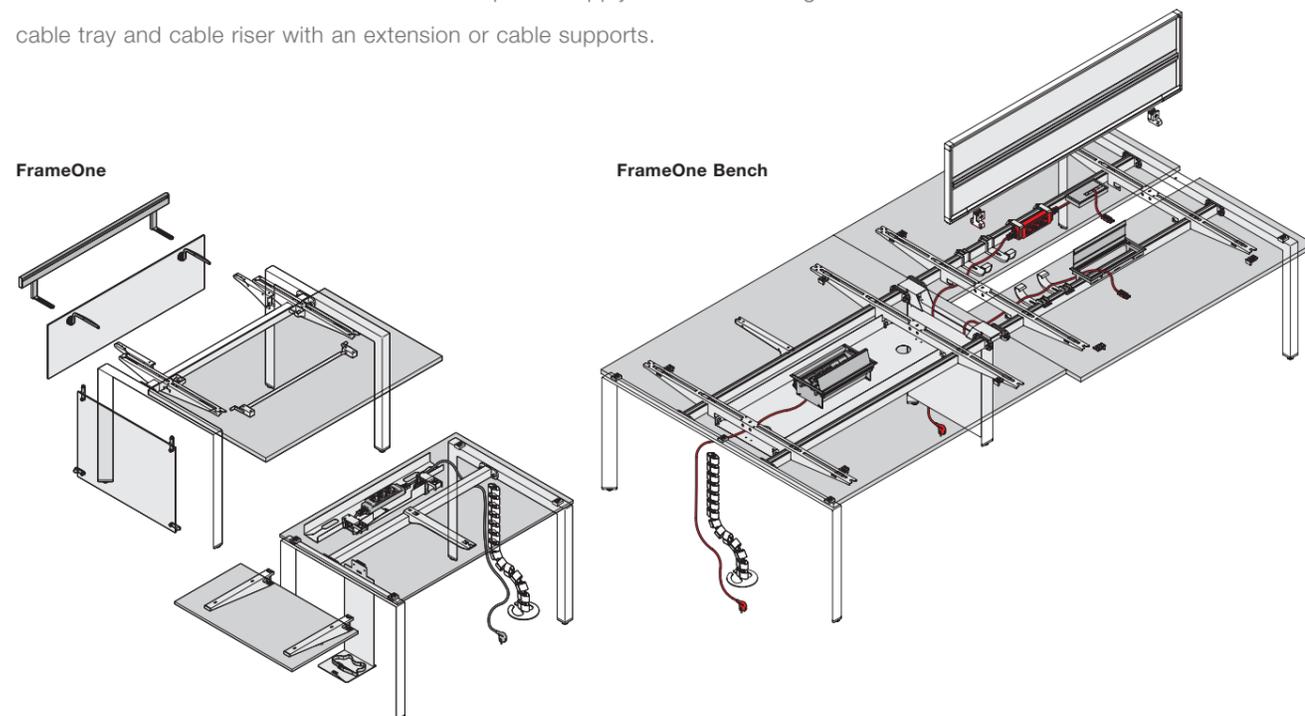

The triangle determines the shape. The legs are continuously height adjustable from 680 to 760mm.

Alternatively, they can be adjusted with the help of a telescopic system or a crank system over a desktop height ranging from 620 to 900mm. FrameOne is always at the right height for you.

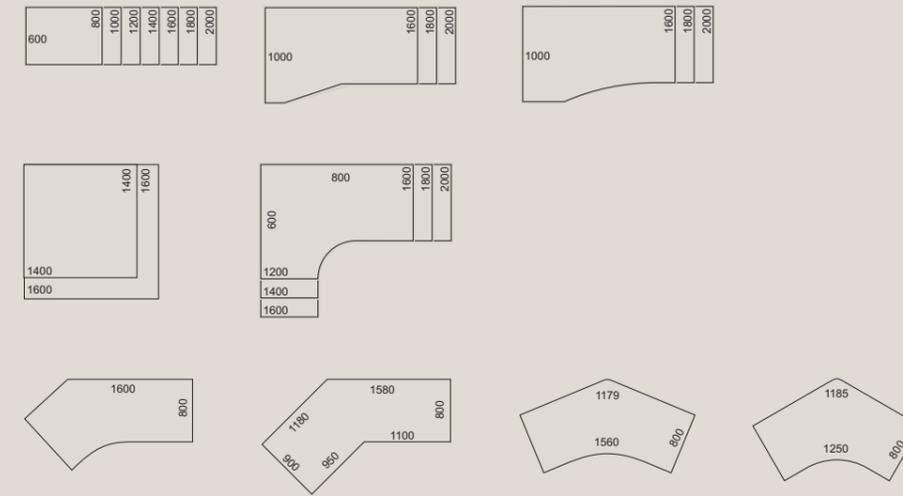

The system

The strength of FrameOne lies in the system. Cable management in and around FrameOne is almost as invisible as the power supply – it uses a folding cable tray and cable riser with an extension or cable supports.

About Steelcase

Since 1912, Steelcase has made a meaningful and measurable contribution to the **success of our customers**. We do this using in-depth knowledge of work and work processes as a basis for creating a **better work experience**. We make this possible by offering a wide range of **quality office furnishing solutions** and support that customers can always rely on, no matter where

in the world they are. We add **measurable value** by understanding how people work and serving them through our **unmatched global network**.

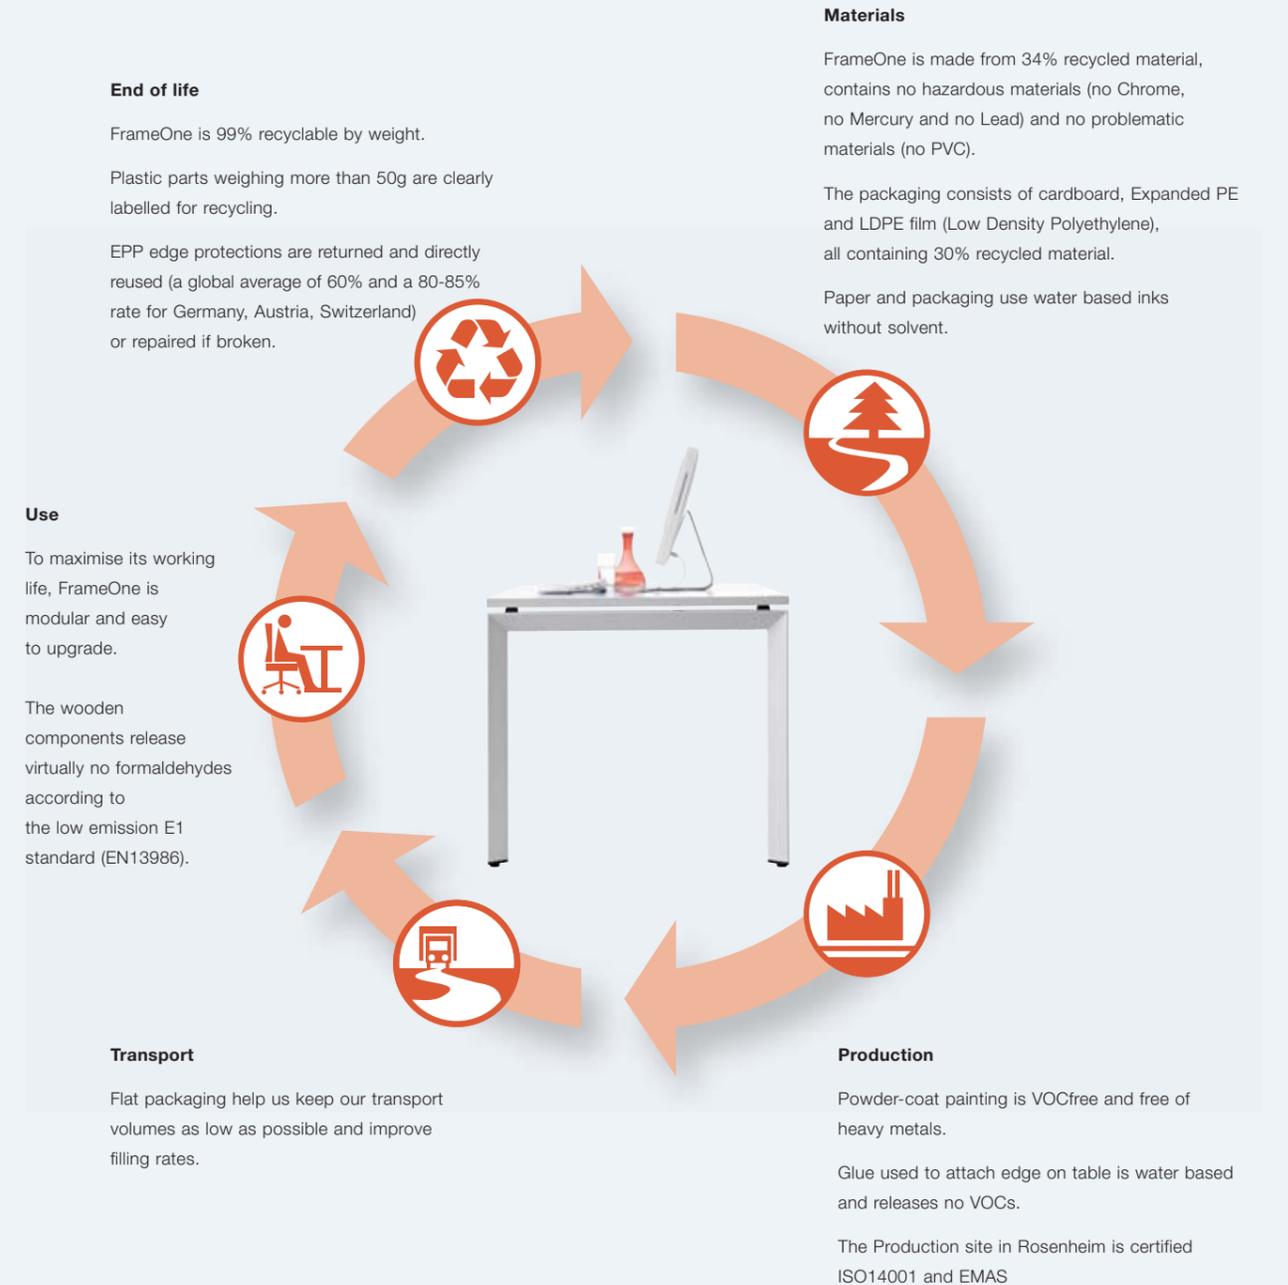

Sustainability is embedded in everything we do. This has made us the **preferred partner** for many of the **world's best companies**.

FrameOne's environmental performance

Like for any other Steelcase product, during FrameOne's development process we considered the environmental impact of our decisions at **every stage of the product's lifecycle** -from materials extraction, production, transportation, use and re-use, to end of life.

The Life Cycle Assessment (LCA -ISO ISO 14044) method helped us **create a more sustainable product** by measuring and reducing the environmental impact, and thus **avoid the transfer of pollution** from one stage to another or from one country to another.

With FrameOne we can provide:

-  **Product Environmental Profile (PEP)**. Based on the ISO 14021, its purpose is to communicate precise, verifiable and accurate information on environmental aspects of the product during its life cycle.
-  **Blauer Engel**. FrameOne complies with the German environmental certification "Blauer Engel".
-  **PEFC**. The wooden components of FrameOne are labelled with PEFC (Programme for the Endorsement of Forest Certification).
-  **E1**. The particle boards comply with the low emission "E1 standard (EN13986)".
