FreeWall2 is the smart way to **shape and organise** your workspace, without messing with your architecture. It's a **free-standing** wall that can act as a room divider, a partition, a shelving unit, a home for all your IT appliances, a **connection between workstations** or more. It's a perfect solution for diverse workstyles and applications.

FreeWall2 – **at the heart of your workspace.**

B2112

FreeWall2

B2111

FreeWall2 makes it easy to **configure or reconfigure your space**. It is the perfect solution for **connecting workstations and managing cables** – while still leaving the individual desks completely free to move.

B2122

B2162

Workstations can be connected **face to face**, for example, either on each side of the same FreeWall2, or using two linked FreeWall2 units, each side used for a different purpose.

B2146

B2163

Alternatively, you might want to connect workstations **side by side**. FreeWall2 allows you to save space and money by allowing people to **share tools and equipment**, such as a printer desk.

B2107

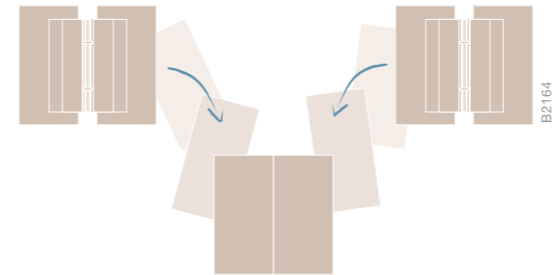

B2110

B2106

Imagine you need to have a spontaneous team meeting...

...simply reposition the desks to create a collaborating space.

B2164

FreeWall2 lets you structure your workspace without restricting your **workplace flexibility**. By providing an additional surface for all your technical equipment and working materials, FreeWall2 allows you to **move the desk independently** at any time. This makes it easy to switch between different work modes – **from tasking to teaming** without a thought.

Creating your **personal workstation**

FreeWall2 is not just a team solution: its functional and aesthetic appeal also makes it **the ideal solution for a personal workstation** – whether it's in the boss's office or a home office. FreeWall2 can be styled with the colours and materials that create the right visual balance with its surroundings.

Make it personal: choose your accessories, add pictures, souvenirs, decor elements, notes etc.

Organising your workplace

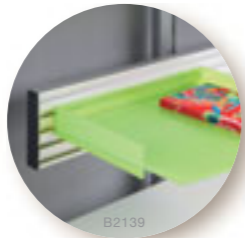

FreeWall2 has adjustable shelves and a wide choice of accessories that allow you to store everything close at hand (including technology tools like printers). In many cases, this dispenses with the need for additional cupboards, pedestals and printer tables – and it saves space!

Optimising your cable management

The **E-box** is conveniently placed to the rear of the shelf. Simply open it up, connect to what you need, close it again, and start working.

FreeWall2 features new cable management options to facilitate easier, and more **efficient irrigation of power and data networks** at the workstation and between different workstations. The large cable channel and connection units hide cables from view, and channel them to wherever they are needed. The E-box provides fast access to power sockets, data lines and computer ports.

Different levels of **privacy**

Choose the level of **visual and acoustic privacy** that works best for each workstation. FreeWall2 provides privacy from other people's view and from disturbing noise levels, giving you control over your concentration and accessibility.

How much **visual connection do you want to create between colleagues?** FreeWall2 provides three different heights and widths for balancing personal concentration and connecting with other team members.

Use it as a spare workstation ...

... or as a temporary workplace

Use a handy work surface while you wait for your meeting.

Tray configurations store common tools, literature or mail.

You might also choose to **use FreeWall2 without a separate desk**. Simply add a shelf or worksurface on one or both sides, sit down and start to work. An ideal solution for saving both space and money.

Welcome areas, corridors, and other **in-between spaces** are also excellent applications for FreeWall2. It's the perfect **pit-stop** for a quick coffee, some last-minute work or for picking up mail or magazines.
