Introducing Movida from Steelcase – Fun, simple and smart

"A workstation
that's **simple and quick.**"

Movida is a tool you'll love. Rounded and welcoming, it's **available in a range of fun colours.** Movida looks and feels great in the workplace, adding a touch of inspiration to your environment.

Movida is simplicity itself. A flexible workstation with an adaptive design, created from just a few components. **It will fit any application you ask of it** – while getting the most out of your office space.

Movida is a smart workstation that organises cables and today's essential tools. Above all, it's **an affordable workstation that fits a budget.**

"A workstation
for sharing the load."

"A workstation with
space for everything I need."

Choose your fun

Your team will enjoy Movida's comfortable lines and rounded surface areas, as well as its inspiring range of colours, that will **freshen up any office**. They will also thank you for the handy little tidy tray, which helps **keep workspaces clutter-free**.

Personalise your workstation with Movida's range of colours and finishes. Which one is yours?

"I work much better when **I feel comfortable.**"

"I like a **touch of colour** to brighten up the office."

"I need help keeping my workspace **tidy.**"

A large range of desktops covering all the options. **One design type for all office activities:** Tasking, Welcoming and Conferencing.

B2835

“A workstation that’s **simple and quick.**”

B2822

Movida’s **simple design** and **accessible connections** make it the ideal workstation for a fastpaced, flexible work pattern. Plug in or

remove your computer or PDA without missing a beat, and keep your things organised so you can stay focused on what’s important.

B2836

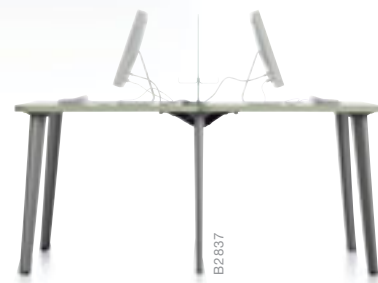

"A workstation for **sharing the load.**"

B2819

Movida allows two people to **link desks and work together** without losing their personal space. Provide your people with a short or full-length

screen or simply with a double tidy tray depending on the level of interaction they need.

B2837

“A workstation with **space for everything I need.**”

B2823

Movidia provides a **large workspace within compact dimensions.**

Its compact corners are perfectly adapted for flatscreen monitors.

They're smooth, rounded, **comfortable** to use and take up less space than standard

desktop corners.

B2839

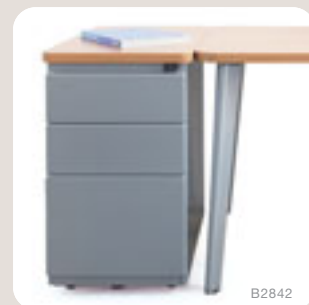

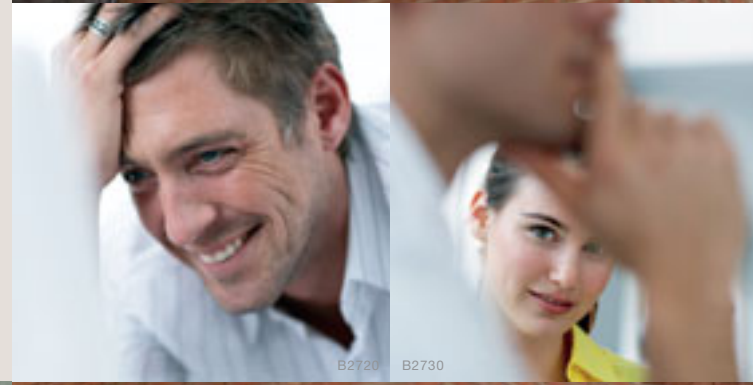

B2840

Planning is simple with Movida

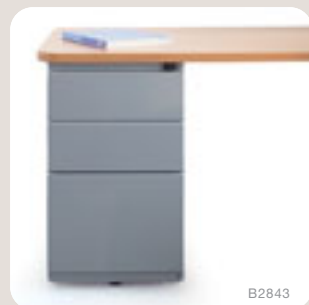

Movida's spacious worktop provides plenty of storage options, both on top and underneath, thanks to its **compatibility with all Steelcase storage ranges.**

Tasking

Create an office fit for a **manager** with defined areas for welcoming and working. Play with colour to create the effect you desire.

Juxtaposed pedestal

Supporting pedestal

Create a **conference or meeting room** in the same style as your office with just six basic desktops.

B2846

B2847

Use dedicated desktop shapes and Movida's reception counter to **give your guests a warm welcome.**

Think smart

Designed to share. Movidia is constructed from the smallest possible number of components so it's easier and more affordable to manage. Plus Movidia is specially designed to share elements between workstations, creating customised workspaces that fit even the smallest of budgets.

Two or more desks can share legs, screens and cable management to increase efficiency per workstation and be **more cost effective.**

Designed with your tools in mind. From a permanent configuration with a PC and flatscreen monitor, to a mobile laptop, each of the tools we rely on every day has been carefully studied for better user comfort and easier IT maintenance.

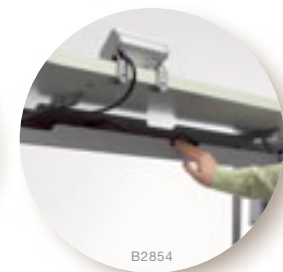

Power sockets are right where you need them for laptops and PDAs yet hidden from direct view.

The **CPU holder** is located in the optimal position to avoid interfering with leg space, with a rail for fine-tuning the position.

The cable net: for light cable management needs, the net is economic and effective.

The cable channel: for more sophisticated cable needs, Movidia's cable channel is mounted on springs to offer either a quick access or a fully open position. Once the job is done, cables are locked in.

Smart for the environment

During Movida's development process we carefully considered the environmental impact of every stage of the product lifecycle – materials extraction, production, transportation, use, re-use and end of life. The Life Cycle Assessment method (LCA – ISO 14040-43) helped us create a more sustainable product by measuring and reducing Movida's environmental impact.

“NF Environnement” certificate

Based on ISO 14024, this voluntary certificate has been awarded to Movida, because of its reduced effect on the environment.

End of life

Movida is 97% recyclable, modular and easy to disassemble using normal hand tools.

At the end of its life, Movida will be recycled through the new Steelcase Environmental Partnership Program.

Use

The wooden components release virtually no formaldehydes, in line with the E1 Low Emissions Standard (EN13986).

Transportation

Flat-packing helps us keep transport volumes as low as possible and optimise filling rates.

Environmental Product Declaration (EPD)

To convey clear and transparent information about the environmental performance of Movida during its entire life cycle, Steelcase provides an Environmental Product Declaration based on the lifecycle assessment.

Materials

Movida is made from 35% recycled materials and contains no hazardous materials.

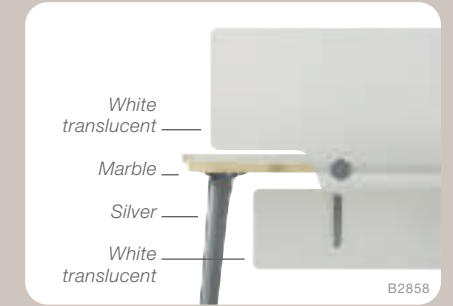

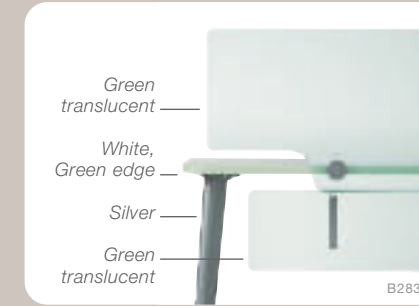

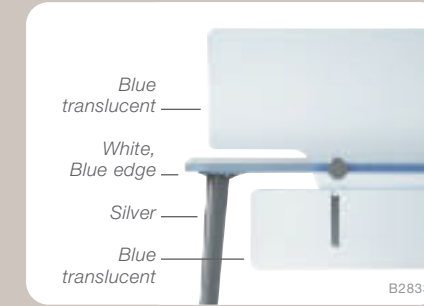

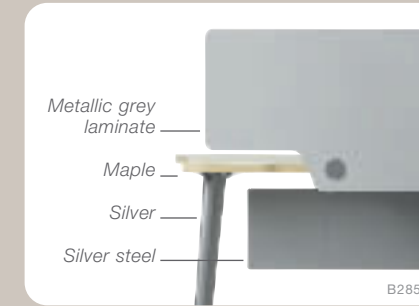

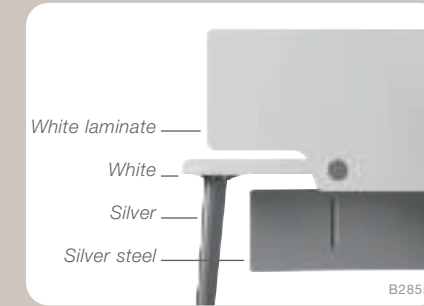

Production

The production site in Wisches has an ISO 14001-certified environmental management system.

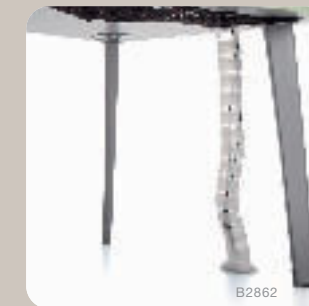

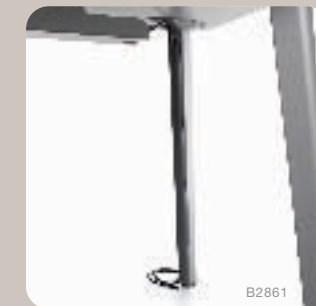

The powder-coat painting and glue used to attach the table edges are solvent- and heavy metal-free and release no VOC.
