

Quadrino

THE DESIGN
STATEMENT
OF A NEW ERA

Rethinking the office

Success in the new economy will go to teams

of highly talented people who are pooling their creativity.

Is your office **designed**

to attract and inspire **top talent?**

New inspiration for today's office Anyone who sits at a Quadrino workstation will tell you there's something special about it. Something that motivates you to do the best work you've ever done. There's a **freshness** in the design, and a positive spirit that flows from the strong combination of forms, colours and materials. No doubt about it: Quadrino is an office system with **charisma**. Which is probably why it's one of the most successful programs we ever created. But the benefits of Quadrino go way beyond its looks. The system's inherent **flexibility** and functionality make it an excellent solution for the new office era.

When work is a pleasure life is a joy

BALANCING WORKSTYLE AND LIFESTYLE

Workstyles are radically changing as companies abandon the old industrial model in favour of new, more flexible structures. Teamwork and innovation are the competitive weapons in today's high-speed, global markets. Instead of treating office workers as 'units of productivity', companies are learning to balance the notion of work

effectiveness with a heightened appreciation for quality of life. These concepts come together perfectly in Quadrino. It provides the system flexibility demanded by 21st century organizations. It offers teams and individuals an inspiring place to work And it makes an impressive design statement to anyone who visits your company.

No desk is an island

Nobody works completely alone in today's networked world. We all need a seamless connection to the people we interact with. So Quadrino's stand-alone desk configurations offer a high level of ICT integration as well as flexible solutions for short team discussions.

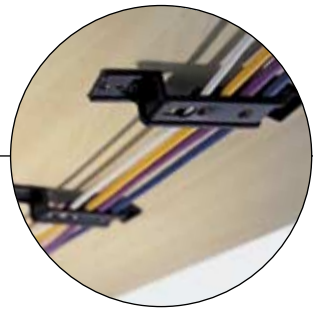

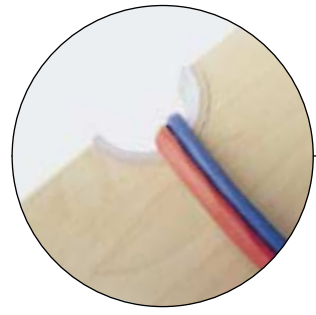

The team-based organization

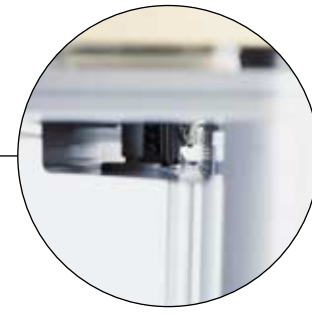

Quadrino is an excellent solution for the team-based organization. It provides a range of effective configurations that balance communication and concentration. So team members can interact whenever they need to, while retaining the feeling that they have their own 'space'.

Get Connected

Quadrino offers a wide range for all items needed through the IT-age. You have the choice to connect all instruments on the desktop as you like. Take the chance to decide, what will be the best for you and your company.

Make your own design statement

Quadrino offers a wide variety of choices in terms of colours, materials, style and finish, as well as a multitude of worksurface configurations. The legs are available in a range of different colours to match your corporate identity or just to look highly attractive. Whatever your preferences, Quadrino will look great, fit your office space and meet your workstation requirements.

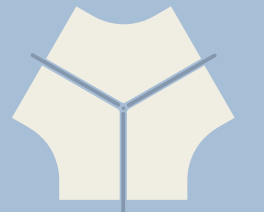

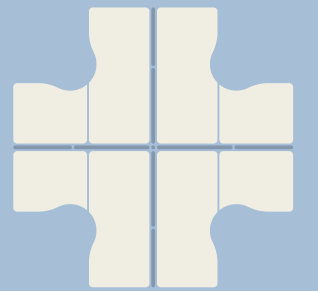

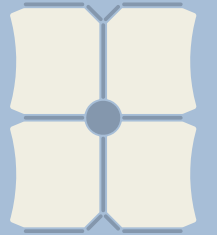

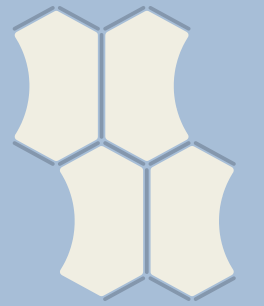

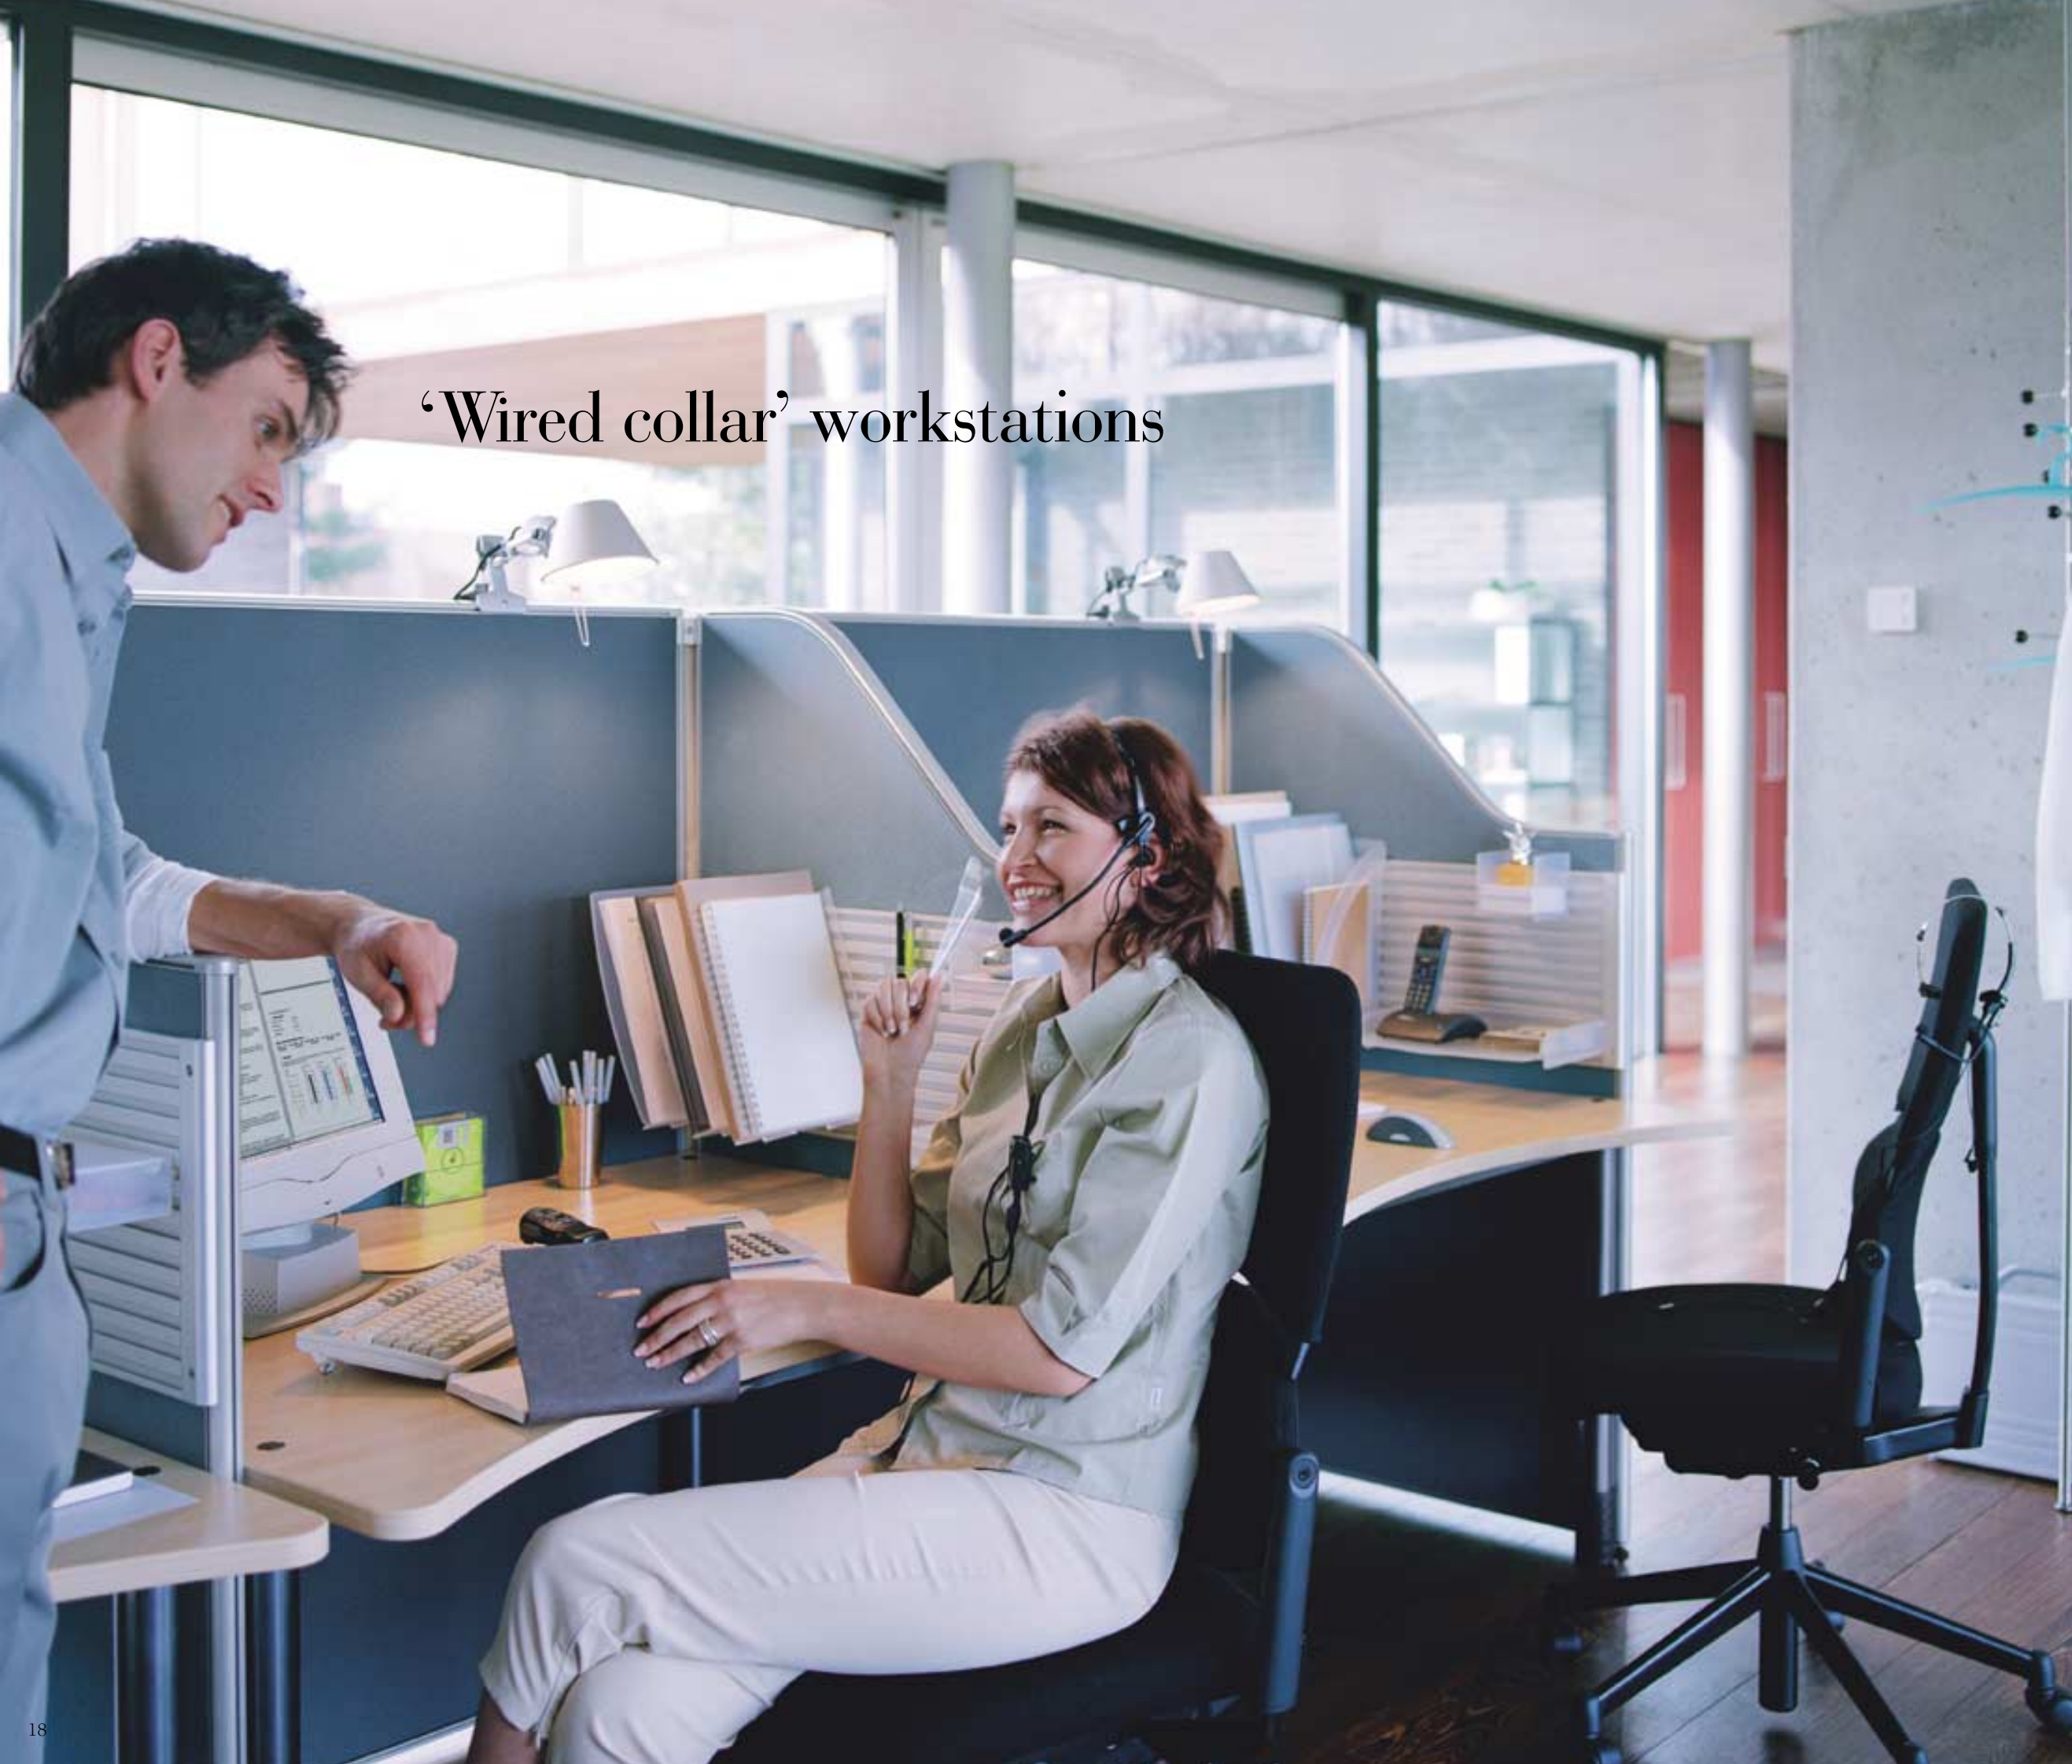

Rethinking the reception

In today's team-based organizations, the reception is taking on a new functionality - as the central support service for desk-sharers, mobile workers, temporary team members and core employees. Quadrino allows for a variety of creative configurations which give receptionists all the right tools to provide team assistance.

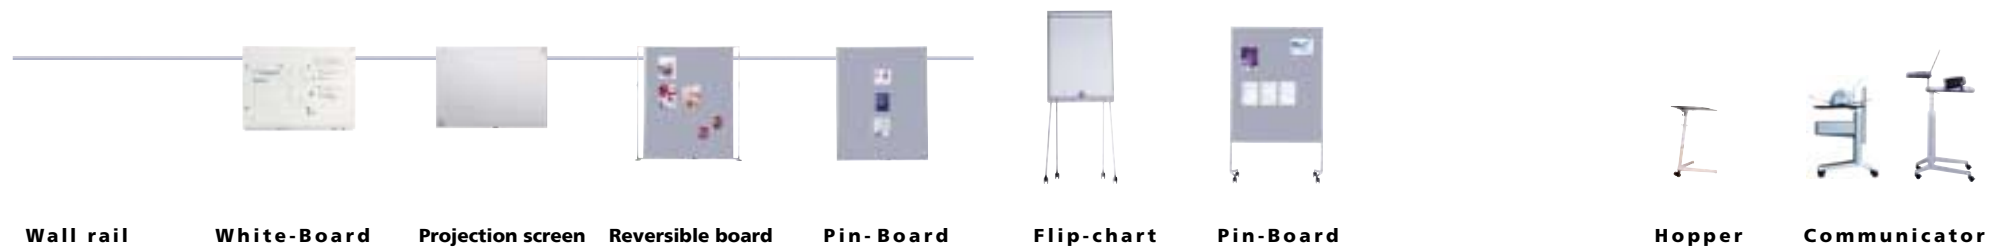

‘Wired collar’ workstations

By combining Quadrino with Rio - our smart and effective partitioning system - you can create excellent solutions for today's 'wired-collar workers'. In call centers, for example, these solutions allow people to work at their best by providing optimum workspace while reducing acoustic reflection.

Sharing Knowledge

Quadrino also brings a distinctive look to the conference room with its cylindrical legs and extensive range of work surface forms. The system provides an excellent environment for effective meetings and training sessions. We also offer a range of information and media communication tools to make your meetings more effective.
