A paper-free office? In an ideal world. There are so many things that we need to have in our immediate reach. Things that we'd like to grab hold of. Large and small, documents and files, books and pictures... But where do we put them?

Shelves, pedestals, mobys, cabinets or FreeWalls!

Moby 71

Moby 91

Moby makes men mobile. Women too of course. A workstation that has everything. A caddy, a dumbwaiter, a messenger, a filer. It provides storage space and stows away perfectly: in garages with or without top cabinets or with slim-line shelves on top. And all this in three different widths. All you need to look for is somewhere to sit...

“No” to limitations. “Yes” to broadmindedness and insight. That is why our cabinet range is so unrestrictedly versatile: **Hinged doors – horizontal tambour shutters – vertical tambour shutters.** Cabinets and doors precisely tailored to every workstation. We even do some lateral thinking and connect cabinet A with cabinet B via shelf C. Proof, that storage space and design can form a harmonious whole.

Cabinets

Our motto: Designing, rather than leaving office material openly visible. For this purpose we have developed practical, colourful and shapely details for indoor life.

Cabinets. Spacious and compact. Discreet space-saving miracles. Limitless storage and filing possibilities.

Sliding doors
Simply indispensable.
Space-makers par excellence. At their best when they look as if they've always been there.

Horizontal tambour shutters Slim-line shape. Compact or yoyo effect. Store loads of office calories, without filling out.

The heavy-weight

Extremely smart, combining technology and everything needed to conceal things attractively. The techno-pedestal does just that.

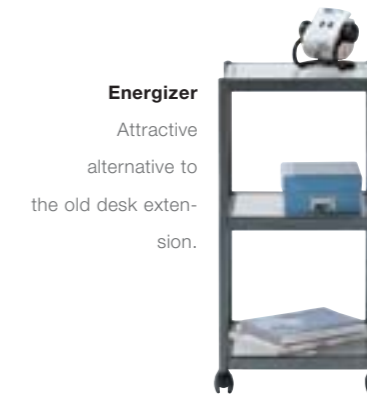

Quality can be seen in the details. It determines how well a piece of furniture actually fulfils its daily purpose.
