## Werndl #1 – A seat for all seasons

Werndl #1 – A seat for all seasons

I remain seated for most of the day.  
I want a chair that I like  
and that does me good.

A chair like its owner. A strong but flexible character. Gives you the back support you need, without hemming you in. Dynamically mobile or stationery, according to your needs. Werndl #1 makes its owner proud. And provides seating flexibility – in all respects.

You work hard.

You want to do great things.

The whole day long.

You sit down and seek inspiration.

The whole day long.

You want to get more out of your day.

Emotional comfort with **Werndl #1**

**Great comfort thanks to 3D armrests** With angle and depth adjustment for working close to the desk; full support provided by backrest. Typical Werndl system ergonomics.

**A chair for everyone?** 150 or 200 cm? If the back is supported in the right place – the adjustable lumbar support helps to do this. And the synchronised tilt mechanism puts orthopaedic surgeons out of work!

## Werndl #1

We have tested it in the toughest conditions. Test it yourself!

**Life is movement.** Werndl #1 follows all your movements, thereby ensuring dynamic work practices. You can set the backrest in a fixed position for focused work or relax in the resistance-free PowerFreeRelax™ position.

**A seat for everyone?** 40 or 130 kg? The spring mechanism is continuously and accurately adjustable. Werndl #1 provides optimal support for every kind of user.

**Werndl #1 follows your natural movements** It relieves pressure in the exact places where pressure is exerted and adapts itself to forward movement. Personalised sitting depth for optimal support, even for long legs.

Design based on people

*Designer of Werndl #1*

# Werndl #1

Strength lies  
in the body centre.

Whoever finds favour with it  
enjoys unrestricted freedom of  
movement. Werndl #1 helps you  
to find and retain your centre.  
The Werndl #1 network does this  
perfectly with its resistance-free  
frame structure and patented  
lumber padding (height and depth  
adjustable even in sitting position,  
vertically flexible). It adjusts to  
every change in posture – just like  
our spinal column. This movement  
also varies from one person to an  
other. No problem for Werndl #1.  
Thanks to its variable and  
individual adjustment capabilities.  
It's all a question of adjustment?  
Precisely. A couple of small  
handles make all the difference.  
And the chair sits!

**Perfect action radius** for all limbs; strain-free, focused work thanks to accurate adaptability and support.

**Horizontal stacking specialist:** Quick installation for conferencing; equally quick storage.

The **PowerFreeRelax™** function rewards long hours of hard work. Enabling you to stay the course – and thanks to a dynamic spring mechanism, heavy-weights also have no trouble getting back on their feet.

Sled base chairs combine classical design with **high-tech amenities** such as ventilation slats and flexible backrest.

Werndl #1 for dynamic sitting. A pure product of the **ECN (Ergonomics Competence Network)**. **Comfort research** and **checklists** have produced a chair that meets all European and US industrial standards. Integrated user-friendly technology almost automatically guarantees **healthy, dynamic sitting practices**.

Comfort features include the four-position backrest, the additional seat incline angle and seat depth adjustment....  
**Emotional comfort** lies in the design and in more than 100 fabric and colour variations. **Werndl #1 for all tastes.**

Think

Create

Relax

Work in a chair

that appeals

to all tastes.

**Werndl #1**

Werndl #1 office chair. A family reunion.

We rely on variety with Office or Manager or Network. Models vary in design but not in ergonomic comfort, which goes without saying. **A comprehensive product range.** With lots of advantages: a consistently modular design concept makes it possible to add accessories to the chair at a later stage, e.g. 3D-arm rests or head rest.

Structural components can be linked together without the need for tools, making the chair easy to assemble, transport or fit out with optional accessories. A plus in the books of the **Facility Manager**. Werndl #1 constantly adapts itself to new requirements. And in addition to its unique modularity, it comes with a **3 to 15 year guarantee** for various components (see page 23).

Unbeatable arguments for Werndl #1: Patented synchronised tilt mechanism, 30° opening angle with PowerFreeRelax™ function, 4-position backrest, comfort seat with -2° incline (optional from -2° to -6° in front area), seat adjustment, 2+3D armrests, 40 – 150 adjustment range, head rest with 30° opening angle, patented lumbar support.

Werndl #1 office chair

High degree of comfort thanks to 3D armrests with adjustable angle, depth, height and width.

**Over 100 fabric and colour variations:**  
Can be matched with partitions.

**Unique design –**  
The Werndl #1 range is perfectly suited to our office systems.

**Werndl #1 visitor chair.** We sit wherever we find place.

Freedom with Werndl #1. That is why we are not only interested in desk chairs for long hours of sitting. **Visitors should also feel welcome.** Werndl #1 makes sure of that. **Sled-base chairs are design classics** in the best sense of the word, with their pure and subtle lines. The **4-leg variant** is the ideal product for mass seating purposes. Discreet and compact in design; optimal comfort and ventilation. Comfortably solid seat surface for horizontal stackers. Collapsible, stackable, stowable. Office dynamics 2004.

<b>Sled-base visitor chairs</b>
Back padding, full padding and optional armrests, stackable (optional with stackable top), glides for hard floors

<b>4-leg visitor chair</b>
Soft or contour seat padding, plastic back, flexible backrest with ventilation slats for long sitting sessions.

<b>Horizontally stackable visitor chairs</b>
Frame in silver, pearl, shale or chrome; stacks to save space. Quickly rolls to wherever seating facilities are needed.

Werndl #1 visitor chair

Compact storage – and always at hand for  
conferencing in small groups or large seminars.  
The ultimate in functionality and comfort.

A unique design – from task chairs to visitor chairs; a professional look for the whole company.

Breathable 3D fabrics and ventilation slats ensure sitting comfort; no need to look any further when it comes to  
feeling good (also with back padding or full padding if required).

Our idea of technology – **indescribably simple**. At a flick of the wrist, it adjusts to the needs of any user, thus ensuring lasting comfort. It goes without saying that Werndl #1 meets all important **European and US industrial standards**. And the environment is also taken into consideration. Werndl #1 has undergone a **life-cycle analysis** ([www.steelcase.de](http://www.steelcase.de)) and its effects on the environment have been documented in an environmental product statement. Central to this aspect is the modular nature of Werndl #1, making knock-down deliveries possible by post. In addition, packaging can be reused a number of times. Yet another bonus for the environment.

## Task chair

**1 Lumbar support**  
Additional support for the spinal lumbar area

**2 Synchronised tilt mechanism**  
Ensures dynamic movement due to optimal opening angle

**3 Ergonomic seat pan**  
for optimal pressure distribution between thighs and buttocks

**4 Weight adjustment**  
Seven weight categories with one rotation

**5 Adjustable seat height**  
Adapts to various body sizes

**6 Star-base design**  
Matches frame-surface of your office furniture

**7 Headrest**  
Takes strain off neck and shoulders

**8 Adjustable seat depth**  
Offers room for longer thighs

**9 Seat suspension**  
Maximum suspension comfort for heavy-weights

**10 Seat incline**  
Additional lowering of seat front reduces pressure on thighs when sitting on edge of chair

**11 2D armrests**  
Takes strain off arm and shoulder muscles, adjustable height and width

**12 3D armrests**  
Takes strain off arm and shoulder muscles, adjustable angle and depth – prevents “edge sitting”

**13 Clothes hangers**  
Can simply be backfitted when needed

**Guarantee:**  
15-year guarantee excluding mechanism and gas lift (10 years), padding (5 years) and upholstery (3 years).

## Visitor chair

**1 Backrest with ventilation slats**  
Provides pleasant micro-climate thanks to better ventilation

**2 Comfort seat padding**  
Optimal pressure distribution

**3 Powder-coated aluminium frame**  
Matches frame-surface of your office furniture

**4 Armrests**  
Takes strain off arm and shoulder muscles

**5 Contour seat padding**  
Optimal pressure distribution combined with design perfection

**6 Back padding**  
Even back support with optimal comfort

**7 Chrome frame**  
Quality design that matches our aluminium packages

**8 Stackable top**  
Stack without exerting force
