

Westside – Dynamic Seating

Westside

Westside chair is engineered for **demanding spaces*** like informal office areas, cafeterias and hotels where traditional seating falls short. It's practical and innovative – a brilliantly simple design offering **flexible, robust and comfortable** seating for non-traditional situations.

* For indoor use only

Dynamic seating

Smooth shape and clean, flowing lines allow true freedom of movement once the user is seated, and is light enough (4,8 kg) to easily move around the chair.

Comfortable lines

Westside's flexible and ergonomic shape is ideal for busy places where people use seating in many different ways.

Smart for the environment

Westside is made of only 2 components, 2 materials (PP and steel) and is assembled with no screws.

Westside is fully **stackable** in vertical (8), compatible with dolly (8) and trolley (15).

Fastening element available to put the chair in row.

Westside comes in 4 fresh colour: **white, sky, sand and lemon** and has an optional upholstered cushion.

Height : 820 mm, width: 545 mm, depth: 590 mm (overall).
